1. BACKGROUND

Relations between the Republic of Moldova (RM) and the European Union (EU) formally started with the signing of the Partnership and Cooperation Agreement (PCA) in 1994 that entered into force in 1998. The PCA established the basic principles of cooperation between RM and EU and was designed for a 10 year period. With the formal expiration of the term in 2008, the validity of the Agreement is being extended automatically provided none of the parties' requests formal cancellation. PCA constitutes the framework of relations between RM and EU.

In 2005, in the context of the new European Neighborhood Policy, RM and EU signed an EU-Moldova Action Plan (EUMAP) for a period of 3 years, which included a series of actions aiming at deepening the cooperation between the two parties. In February 2008, upon the conclusion of the Action Plan implementation period, the European Council adopted a decision expressing the readiness to initiate new negotiations with the RM with the goal of signing a new agreement.

In parallel with the Action Plan, Moldova has signed with the EU a Visa Facilitation Agreement, and received a preferential trade regime (Autonomous Trade Preferences) with the EU for a majority of the goods produced in Moldova.

Since 2010, RM has been successfully carrying out negotiations with EU for an Association Agreement (AA) and has undertaken concrete steps towards a deeper relationship with the EU.

On 5 December 2011, EU decided to launch negotiations on a Deep and Comprehensive Free Trade Area (DCFTA) with Moldova, with the purpose of boosting economic growth and investment within its Eastern European partner. These negotiations tackled a broad range of trade and economic issues in order to ensure a closer economic integration with the EU for Moldova. DCFTA will be part of the AA, which strives, also in line with the EU's Eastern Partnership objectives, to closely associate Moldova to the European Union in both economic and political dimensions.

The EU and the RM successfully held the final round of negotiations on a DCFTA in June 2013. The DCFTA consists of 14 chapters; it will provide for a significantly improved mutual access for European and Moldovan goods and services. It will ensure an open, stable and predictable legal environment for the benefit of Moldovan businesses and consumers. The DCFTA will improve the trade opportunities between EU and Moldova and enhance prosperity of both economies.

The Project "Building Institutional Capacity of the Ministry of Foreign Affairs and European Integration (MFAEI)" aims at strengthening the institutional capacity of the MFAEI as lead institution in the AA negotiation process. In the same context, the Project seeks to contribute to developing EU integration capacities of key line ministries, including the Ministry of Agriculture and Food Industry (MAFI). The immediate focus is currently the post-negotiation and implementation phases of the AA.

Alignment of policy, institutional arrangements, legislation procedures and best practices to EU standards and requirements is a priority for MAFI to raise the level of consumer protection and competitiveness domestically and to gain access to EU markets. In particular reference is made here to relevant parts of Common Market Organization policy documents and legislation (including Council Regulation (EC) No. 1234/2007 establishing a common organization of agricultural markets and on specific provisions for certain agricultural products and Commission Regulation (EC) No. 1249/2008 laying down detailed rules on the implementation of the Community scales for the classification of beef, pig and sheep carcasses).
