UNDP will respond by standard electronic mail and will send written copies of the response, including an explanation of the query without identifying the source of inquiry, to all applicants.

1. BACKGROUND

The Government of Moldova explicitly acknowledges its commitment to link migration and development at the local level. Institutions at all government levels are becoming increasingly aware that migration is one of development factors; this is especially true for emigrees and their potential support to the home communities through local essential service improvement (water, sanitation, education, health and social services), skill and knowledge transfer and income generating opportunities.

Given the stringent need to further advance with the implementation of the Decentralization Strategy and embedding migration aspects into development processes, the State Chancellery together with United Nations Development Programme have designed a new Programme phase of the Joint Integrated Local Development Programme. The project is designed to support Central Public Authorities (CPAs) and LPAs to develop and implement strategic policies, methodologies and procedures related to temporary, permanent and circular migration and link them to local development processes, which will enable further design and implementation of joint service improvement and income-generating initiatives, ensuring equal access for women, children, young people the elderly, the disabled, and other population groups in selected localities. Thus, as seen above, integrating migration into local development requires a systematic, tangible and programmatic approach. The current project is proposed on the basis of the results achieved during the implementation of 3 phases of JILDP (2007-2015).

The Overall Objective of the Programme is Communities affected by migration benefit from improved essential local services, namely water and sanitation, health, social and education services, and have access to income-generating opportunities, including improved employment reintegration support for returnees.

Considering the specific local development context, current situation and needs, the project sets two primary outcomes:

Outcome 1: The Ministry of Labour, Social Protection and Family and the National Employment Agency have mandates, capacities and resources to provide qualitative employment reintegration services to all returnees.

Outcome 2: Local public authorities have the capacities and resources to engage with community members, including migrants, and to promote know-how transfer from abroad with a view to improving local essential services and offering opportunities for income-generating activities.

The intervention supports the implementation of national development priorities, while responding to challenges of European Union driven reform. It is built on the priorities of the Government Programme 2015-2018, the National Development Strategy Moldova 2020, the National Decentralization Strategy 2012-2015, the Strategy on Migration and Asylum, the United Partnership Framework (for 2013-2017), and Swiss Cooperation Strategy Republic of Moldova 2014-2017. In order to ensure an impact maximization and tangible results, the project intervention envisages strong synergies with BRD/IOM and NEXUS, as part of the programmatic intervention funded by Swiss Cooperation Office in Moldova (SDC).
