

## **TERMS OF REFERENCE**

Job title:	National Consultant (Community Facilitator/Evaluator)
Duty station:	Chisinau, Moldova
Reference to the	Support to Confidence Building Measures Programme; Empowered Communities and Infrastructure Support Project
Contract type:	Individual Contract (IC)
<b>Contract Duration:</b>	10 November 2015 – 30 January 2016

#### Job content

#### I. Background:

The **overall objective** of the Support to Confidence Building Measures Programme (the SCBM Programme), is to contribute to an environment of trust and cooperation across the Nistru/Dniestr River generating new perspectives on shared interests and a shared future for people from both banks of the river while responding to their pressing development needs. The SCBM Programme represents a framework for engaging in development interventions across the security zone on both sides of the Nistru/Dniestr River, comprising a series of activities that strengthen, regularize and intensify interaction between otherwise divided societies, aiming to establish this interaction as a norm.

SCBM Programme consists from two main components: Business Development Project and Empowered Communities and infrastructure support Project.

Under fourth phase of implementation (2015-2018), the SCBM Programme aims to address barriers to cooperation by building the trust and broadening opportunities for engaging a wide range of actors. At least 60 local actors will increase their capacities to promote sustainable and inclusive development, while 30 social infrastructure projects will be implemented in the security zone on both banks of the river, also promoting **people-to-people contacts** and **cross-river** exchanges. Projects will focus on the rehabilitation of key social institutions (such as education, health facilities), and improvements to critical physical infrastructure (such as transportation, water supply, sewage networks and waste management).

#### SPECIFIC CONTEXT

During the previous phases of the SCBM Programme implementation (2012-2015) renovation of 40 community infrastructure projects was implemented on both banks of the Nistru River, 10 of them being implemented in Transnistria region (the full list of implemented infrastructural projects is in Annex 1). Projects included the rehabilitation of key social institutions, such as education, health facilities, and improvements to critical physical infrastructure, such as water supply, sewage networks and waste management. In order to ensure a tangible impact, the SCBM programme provided support to medium-sized infrastructural projects, which required a minimum budget of 50,000 USD, but not exceeding 150,000 USD. In the current phase of the programme, 30 new projects will be supported on both banks of the river and joint activities will be foreseen for all 70 projects. Before more detailed, soft activities are

developed, the programme aims to conduct a review of the 40 projects implemented during 2012-2015 that will look both into the operationalization of the renovated infrastructure and sustainable management by the local authority, as well as identify opportunities for enhancing its social impact in the community.

## II. Objective of the assignment

To conduct a detailed review of the 40 infrastructure projects implemented during 2012-2015 phase of the SCBM Programme, looking both into the operationalization of the renovated infrastructure and sustainable management by the local authority, as well as identify opportunities for enhancing its social impact in the community. Both engineering aspects and social impact of the infrastructure objects should be reflected in the review report. Recommendations will include opportunities for enhancing the social impact of the project, specifically focusing on promotion of cross-river cooperation and people-to-people interaction.

## III. Key activities

- a. Following initial briefing with SCBM programme and desk-review of the available documents, develop a **detailed methodology and work plan** to be submitted for SCBM programme approval;
- b. **Conduct site visits** to the 40 infrastructure projects (including not announced visits) to analyse the current infrastructure functionality, level of usability, limits in achieving operational and financial sustainability. Assess social impact of the project for the community, and inclusion of various community groups in its use.
- c. For each of the 40 projects, formulate specific recommendations which should be two-fold: for improvement of operational and financial sustainability and elimination of identified gaps; and for enhancement of social impact of the project, in particular towards promoting cross-river dialogue and cooperation.
- d. Review draft report as per team's recommendations and submit final version for approval. Presentation of final version to key stakeholders.

### **IV. Expected results/Deliverables**

The results expected from the Consultant's service provision are:

ITEM NO.	DELIVERABLES	Estimate Work days	Tentative timeframe
	Tasks		
a)	Desk Review of the existing documentation for the 40 infrastructure projects implemented during 2012-2015 (please see the list of projects in Annex A, at the end of this document) Develop a detailed methodology approach and work plan to be submitted for SCBM programme approval. Deliverable: Detailed methodology and work plan elaborated	5 days	By 15 November 2015
b)	Conduct site visits to the 40 infrastructure projects (including 10 in Transnistria) to analyse the current infrastructure functionality (both from engineering and social point of view). Engage with community groups, local authorities and other	20 days	By 15 December 2015

	key social players relevant for the specific project.		
	Deliverable: Agenda and notes of local meetings. List of participants. Photos		
c)	Formulate specific recommendations which should be two- fold: - for improvement of operational and financial sustainability and elimination of identified gaps; and for enhancement of social impact of the project, in particular towards promoting cross-river dialogue and cooperation.	10 days	By 28 December 2015
	Deliverable: Draft review report, including summary analysis and recommendations for each infrastructure project (max one page per project) submitted to the SCBM team.		
N	Review draft report as per team's recommendations and submit final version for approval. Presentation of final version to key stakeholders.	5 days	By 30 January 2016
d)	Deliverable: Final report (in English) approved by UNDP and endorsed by key stakeholders		
	TOTAL	40 days	

#### V. Organizational setting:

The Consultant will work under the direct supervision of the SCBM/Capacity Development Project Officer and SCBM Empowered Communities and Infrastructure Support Project Manager. The work is based on desk research and field visits, **all travel arrangements**, **including in Transnistrian region**, **belong to Consultant's responsibility**.

#### VI. Payment for provided services

The payment for the services provided by the Consultant under the SCBM Programme will be made on a lump-sum basis, as per contract deliverables, upon acceptance by the Community Development Project Manager of the submitted reports.

#### VII. Qualifications and skills required:

#### Education:

• University degree in Development Studies, Public Administration, Public Policy, Law, Social Protection, or other related areas.

#### **Experience:**

- At least five years of practical work experience in the area of Community Development;
- At least three assignments of monitoring and evaluations /reviews involving community infrastructure and local development projects;
- Proven experience in post-conflict setting and conflict sensitive development projects will be a strong advantage.

#### **Competencies:**

• Practical skills in conducting assessments, evaluations and/or reviews of community development projects;

- Understanding of the post-conflict setting in Moldova, including on the left bank of the Nistru River;
- Excellent analytical and writing skills in English;
- Demonstrated communication, presentation and advocacy skills, particularly with regard to human rights and gender equality issues;
- Proven commitment to the core values of the United Nations, in particular, respecting differences of culture, gender, religion, ethnicity, nationality, language, age, HIV status, disability, and sexual orientation, or other status.

#### Language Requirements:

• Fluency in Romanian and Russian. Excellent knowledge of English (especially written)

The United Nations in Moldova is committed to workforce diversity. Women, persons with disabilities, Roma and other ethnic or religious minorities, persons living with HIV, as well as refugees and other noncitizens legally entitled to work in the Republic of Moldova, are particularly encouraged to apply.
