### 1. BACKGROUND

"Support to Confidence Building Measures" Programme (SCBM Programme) is funded by the European Union and co-funded and implemented by the UNDP Moldova. The overall objective of the Programme is to build confidence between Chisinau and Tiraspol by involving local authorities, civil society organizations, business community and other stakeholders in joint work and spur economic and social development on both sides.

The SCBM Programme seeks, inter alia, to enhance the economic development and contribute to economic rapprochement between the two banks by promoting cross-river exchanges and expanding the range of business support services; empowering local communities and actors from both sides to participate in collaborative projects addressing pressing development needs and ensuring the delivery of essential public services; addressing common environmental development concerns; fostering civil society development by enhancing the capacity of NGOs to generate activities which promote cross-river collaboration and address key development needs.

The current phase of the SCBM Programme (April 2012 – March 2015) focuses on 5 key areas, which include a range of sub-projects with a strong focus on partnerships from both banks: business development, civil society, social infrastructure, environment and health.

The current initiative falls under the Civil Society component (No 3.1) of the SCBM Programme, which reads:

*Dialogues programme between experts, opinion leaders*

This flagship initiative will be a key mechanism to convene actors from both banks of the Nistru River, promote cooperation and encourage the development of joint solutions. It will succeed the pioneering Transnistrian Dialogues project (2006-11) which established informal platforms (workshops, seminars,

study visits, etc.) for linking top-level decision makers, members of the technical working groups and professionals and experts from the economic and social sectors on both sides of the Nistru River. The project will continue working with groups who have participated in Transnistrian Dialogues and will also expand to capture other segments of society who may be interested in joint collaboration in a range of different sectors. The project will draw lessons from other projects, such as IMPACT implemented in 2007-2009.

## **2. SCOPE OF WORK, RESPONSIBILITIES AND DESCRIPTION OF THE PROPOSED ANALYTICAL WORK**

The aim of the current initiative is to create an **informal platform for civil society leaders and experts** to support CBM Working groups. The informal setting and environment under this project will enable the groups to identify and focus on non-political, developmental areas and concerns that are of strong interest to both sides, and work out, with the help of civil society, experts and UNDP project team, the modalities of turning them into workable projects that could be realistically implemented on the ground.

The ideas generated through these dialogues will be translated into specific confidence-building projects and blueprints for further development interventions, which will fill in the next phase of the CBM program. Following consultations with relevant stakeholders from both sides on the WGs that they would like to focus on, at the first stage this initiative will provide an informal platform for **Economy/Trade and Social Protection/ Humanitarian Aid groups**. At a later stage, other groups will be added to this informal civil society platform.

For detailed information, please refer to Annex 1 – Terms of Reference.
