The procuring entity will open the Proposals in the presence of a Committee formed by the Head of the procuring UNDP entity.

20. Clarification of proposals

To assist in the examination, evaluation and comparison of Proposals, the Purchaser may at its discretion, ask the Offeror for clarification of its Proposal. The request for clarification and the response shall be in writing and no change in price or substance of the Proposal shall be sought, offered or permitted.

21. Preliminary examination

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

22. Evaluation and comparison of proposals

A two-stage procedure will be utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price schedule/financial proposal of the Proposals will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the Term of Reference (TOR) and the Instructions to Offerors.

In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score in the technical evaluation, will be compared. The **cumulative analysis scheme** will be applied with a total score being obtained upon the combination of weighted technical and financial attributes. An Offeror's response to the solicitation document is evaluated and points are attributed based on how well they meet the defined desirable criteria. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 1000 of all the desirable factors of the RFP. The contract will be awarded to the offeror obtaining the highest cumulative score. The following formula will be applied in calculating the cumulative score:

$$B = T + \frac{C_{low}}{C} \times 300,$$

where

T – is the total technical score awarded to the evaluated proposal;

C – is the price of the evaluated proposal; and

C_{low} – is the lowest of all evaluated proposal prices among responsive proposals.

TERMS OF REFERENCE

1. Background

The “Protection and Empowerment of Victims of Human Trafficking and Domestic Violence” Project was formulated within the United Nations Development Assistance Framework (UNDAF) for the period of 2007 to 2011, which was agreed upon between the Government of Moldova and the UN Country Team, including UNDP, UNFPA, and IOM.

The participating agencies (UNDP, UNFPA, IOM Mission, and OSCE Mission) and national implementing partners will cooperate to address critical human security issues in Moldova. In particular, they will respond to the special needs of victims of human trafficking and domestic violence for enhanced protection and empowerment.

This Project has two primary components: Protection and Empowerment, which are interconnected and address the needs of victims of human trafficking and domestic violence through a strengthened protection system (a top-down approach in partnership with appropriate governmental institutions) as well as empowered communities and individuals (a bottom-up approach in partnership with relevant community-level governmental officials, civil society actors, and media).

The overall goal of the project is to improve the ability of the Government of Moldova, in partnership with civil society, local communities, and other service providers, to provide vulnerable citizens with a life free from threats or experience of domestic violence and human trafficking, as well as to improve the access of these vulnerable citizens to quality, comprehensive, necessary services (medical, psychological, education, social, legal, employment, and housing) to achieve and sustain such a life.
