### **20. Clarification of proposals**

To assist in the examination, evaluation and comparison of Proposals, the Purchaser may at its discretion, ask the Offeror for clarification of its Proposal. The request for clarification and the response shall be in writing and no change in price or substance of the Proposal shall be sought, offered or permitted.

### **21. Preliminary examination**

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

### **22. Evaluation and comparison of proposals**

A two-stage procedure will be utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price schedule/financial proposal of the Proposals will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the Term of Reference (TOR) and the Instructions to Offerors.

In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score in the technical evaluation, will be compared. The **cumulative analysis scheme** will be applied with a total score being obtained upon the combination of weighted technical and financial attributes. An Offeror's response to the solicitation document is evaluated and points are attributed based on how well they meet the defined desirable criteria. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 1000 of all the desirable factors of the RFP. The contract will be awarded to the offeror obtaining the highest cumulative score. The following formula will be applied in calculating the cumulative score:

$$B = T + \frac{C_{low}}{C} \times 300,$$

where

*T* – is the total technical score awarded to the evaluated proposal;

*C* – is the price of the evaluated proposal; and

*C<sub>low</sub>* – is the lowest of all evaluated proposal prices among responsive proposals.

**for Campaign Strategy & Design Development**  
***(November 2010 campaign)***

**a) Background**

The early Parliamentary elections will take place in Moldova on 28 November 2010. The Central Electoral Commission of Moldova will coordinate an ample voter information campaign around the early Parliamentary elections. This campaign will be implemented with assistance of the “Electoral Support to Moldova Project” (funded the European Union, co-funded and implemented by the United Nations Development Program), as well as a number of other international development partners.

**b) Communication objectives**

This campaign aims at informing the largest public that an anticipated general election will be held on 28 November 2010, and that Moldovan voters should verify their names on the voters lists, be informed of the procedures pertaining to the vote and go to the polls to exercise their right. The information is primarily targeted at Moldovan voters in Moldova, but also at Moldovan voters out of country. CEC Head of Civic Education and UNDP PR & Media Advisor to CEC will provide accurate information content in order to phrase all communication material.

Campaign Strategy will meet the following communication goals:

- Inform voters on the time and date of the election;
- Times and dates of voter registration (verification of voters lists, see below);
- Location to register (see below);
- Location to vote;
- Documents required to vote;
- Voting procedures.

The second aim of the campaign is the verification of voters’ lists in order to strengthen the integrity of the list. It should be clear that the list verification process is crucial to the transparency and enhancement of European democratic practices, and should involve all elections stakeholders. We would like to motivate eligible voters to join in this collective effort for the sake of a clearer electoral exercise.

The third aim of the campaign is to reach out to Moldovans voters out of Moldova and inform them on the procedures of the vote (see point 1), pre-register at the Moldovan representations (to be determined) and motivate them to participate in the vote. This effort should primarily be carried through communication means inside Moldova, bearing in mind that the targets reside outside of Moldova.

Overall, the Campaign Strategy should present the CEC as an institution seeking modernity, efficiency, fairness and openness.

**Key audiences**

Some audiences we seek to motivate (youth, women and minorities) and others to inform (already involved in the electoral process, the elderly). The production company chosen by CEC and UNDP will be responsible for research and target identification.

## **Messages and slogans**

The main points above need to be consistent and communicated in all our material produced, for clarity and focus.

Slogans will be based on messages. All produced material should be in the official language of the state and Russian. Slogans will be crafted bearing in mind that the CEC will use Internet communication means such as Facebook, Twitter, YouTube and other social networks to reach out to Moldovans all over the world and not only inside Moldova.

### Sample messages:

- General: Anticipated general elections will be held in the Republic of Moldova on November 28th 2010: know where you vote, where and how you register to vote, how you will be voting.
- Your role as a responsible voter is to double check voluntarily whether your name is on the list, and correct possible mistakes. To do this, you will have to explain procedure, where to go, what ID to carry, and when to do it.
- Elections are more transparent and help bring us all together when the lists are corrected. Help us correct the voters lists of Moldova by doing your share.

Sample slogan: “Your vote counts + Election date”

## **Designing layout and scripts**

Company will have to propose designs for all print materials it will choose to communicate through, and PSA scripts (audio-visual and audio). All materials should be bilingual when laid out (with an English version of the text) and scripts should be bilingual, with an English translation.

## **Design for print**

Design for materials chosen by the company as communication tools (see sample list below) should be consistent to keep the branding image of the CEC. All designs should allow for extra logos accompanying the CEC logo, websites’ addresses and hotline number. Layout and text should be in language of the state, Russian, and text translated in English.

## **Audio-visual and audio**

Scripts for PSAs (audio-visual and audio) should not be longer than 40 seconds (including slogan time) and in formats allowing editing for possible further use. Audio-visual scripts should be bilingual (state language and Russian) and also follow the branding image of the CEC.
