#### **Lot 2. Item 3.**

**Question:** Are the client licences Microsoft Windows Server 2008 CAL for User or Device?

**Answer:** For user

#### **LOT 3. Item 1**

**Question:**

Requirements states the following :

- min. 2 x EHWIC slots
- min. 2 x Double-wide EHWIC slots

EHWIC is proprietary term/equipment of Cisco. This limits number of participants to a single vendor.

The same situation is with the following requirement: min. 1 x Service Module slots

**Answer:**

National Bureau of Statistics has developed its standards for its IT system, and has installed network based equipment with these specifications. As an upgrade for the existing system one more equipment with the same specs is needed. Due consideration to these facts has been given at splitting the requirements into Lots.
