Instructions to Offerors**A. Introduction****1. General**

The purpose of this Request for Proposal (RFP) is to solicit proposals from qualified companies that have the necessary capacities to produce a 15 minutes educational video (DVD) about the functioning of the Moldovan Parliament.

Effective internal and external communication is crucial to the success of any parliament. The main objectives and priorities were identified and announced in Parliament Outreach Strategy for 2011-2014. In order to raise the awareness of the role of Parliament, in particular amongst young people and visitors of the Assembly, the Project intends to produce a video about parliamentary practices. This will contribute to a better visibility of the parliament institution and its interaction with different representatives of civil society.

With the support of a national communication consultant, the UNDP Parliament Project has developed a script to be applied for production of a video about the work of the Moldovan Parliament. The script will form the basis of a 15 minutes video about the work of parliament in Moldova.

The procuring entity will open the Proposals in the presence of a Committee formed by the Head of the procuring UNDP entity.

To assist in the examination, evaluation and comparison of Proposals, the Purchaser may at its discretion, ask the Offeror for clarification of its Proposal. The request for clarification and the response shall be in writing and no change in price or substance of the Proposal shall be sought, offered or permitted.

21. Preliminary examination

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

22. Evaluation and comparison of proposals

A two-stage procedure will be utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price schedule/financial proposal of the Proposals will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the Term of Reference (TOR) and the Instructions to Offerors.

In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score in the technical evaluation, will be compared. The **cumulative analysis scheme** will be applied with a total score being obtained upon the combination of weighted technical and financial attributes. An Offeror's response to the solicitation document is evaluated and points are attributed based on how well they meet the defined desirable criteria. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 1000 of all the desirable factors of the RFP. The contract will be awarded to the offeror obtaining the highest cumulative score. The following formula will be applied in calculating the cumulative score:

$$B = T + \frac{C_{low}}{C} \times 300,$$

where

T – is the total technical score awarded to the evaluated proposal;

C – is the price of the evaluated proposal; and

C_{low} – is the lowest of all evaluated proposal prices among responsive proposals.

(a) RFP Objectives:

Selection of a specialized company to produce a 15 minutes educational video (DVD) about the functioning of the Parliament of the Republic of Moldova.

(b) Background:

Support to Parliamentary Development in Moldova Project aims to enhance parliamentary efficiency in carrying out its functions and responsibilities thus contributing to viable democracy and open society in Moldova. The project adopts a comprehensive, long-term approach to parliamentary development including strengthening of the legislature's law-making, representation and oversight roles. Moreover, it includes cross-cutting, transversal issues such as human rights, MDGs, conflict prevention, anti-corruption, women and minority political involvement etc.

Effective internal and external communication is crucial to the success of any parliament. The main objectives and priorities were identified and announced in Parliament Outreach Strategy for 2011-2014. In order to raise the awareness of the role of Parliament, in particular amongst young people and visitors of the Assembly, the Project intends to produce a video about parliamentary practices. This will contribute to a better visibility of the parliament institution and its interaction with different representatives of civil society.

With the support of a national communication consultant, the UNDP Parliament Project has developed a script to be applied for production of a video about the work of the Moldovan Parliament. The script will form the basis of a 15 minutes video about the work of parliament in Moldova.

(c) Scope of work and expected output:

The objective of the video is to better inform and educate Moldova's citizens, particularly young people, about the work of parliament in Moldova. The video will be broadcasted on national television, used during civic education courses in Moldova's high schools, and shown to visitors of the Assembly of Moldova.

Methodology

The selected company will produce a 15 minutes educational video about the work of the Parliament of Moldova based on the script which has been already developed by UNDP Parliament Project and agreed with the Secretary General of the Parliament's Secretariat. The script might be discussed and adjusted after the company has been selected.

The contractor must consider similar promotional products (videos) developed by/for different national European parliaments.

The video will be made available in Romanian ("voice off") with an option for Russian and English subtitles.

The themes that the script is addressing are as follow:

- What is being made with our vote? The role of the citizens does not end with the action of voting;
- The Parliament at work, its committees and plenary sessions.
- The Parliament co-operates with the Government.
- Being a Member of Parliament (MP) is a very challenging, stressful but a very rewarding job.
- The video must be non-partisan (must not favor any political party).
- The video must be presented in such a way that it would interest young people.
- Also, the Parliament must be shown as a democratic institution; an institution that is transparent and where there is always room for improvement.

The target groups of the video:

- Young people: copies of the video will be distributed to high schools throughout Moldova and shown during civic education classes.
- Visitor groups to the Assembly.
- The general public: the video will be shown on national television.

Scope of work and expected output: In order to achieve the objectives, the contractor will:

- Assess the detailed script for a video/DVD about the work of the Parliament of Moldova and adjust it if necessary
