Instructions to Offerors**A. Introduction****1. General**

The purpose of this Request for Proposal (RFP) is to solicit proposals from qualified companies that have the necessary capacities to design, organize and conduct custom tailored trainings on Team building and Stress Management for Parliament of Moldova Secretariat staff and Parliament of Youth members.

Effective internal and external communication is crucial to the success of the functioning of any professional organization. Based on two previous separate training sessions for the senior managers and a part of Parliament of Moldova Secretariat staff, in which participants have been trained how to act as a team and how to be effective and efficient in performing the assigned duties, another group of parliamentary staffers needs to be further trained through case studies and practical exercises that would develop the skills related to these issues. The project also aims to provide a similar training for the Members of the Parliament of Youth.

To support these efforts, the United Nations Development Programme (UNDP) Moldova, through its project "Support to Parliamentary Development in Moldova" seeks to contract a qualified company to design, develop and deliver training on Team building and Stress Management for Parliament of Moldova Secretariat staff and Parliament of Youth members.

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its

Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

22. Evaluation and comparison of proposals

A two-stage procedure will be utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price schedule/financial proposal of the Proposals will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the Term of Reference (TOR) and the Instructions to Offerors.

Cumulative Analysis

In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score in the technical evaluation, will be compared. The **cumulative analysis scheme** will be applied with a total score being obtained upon the combination of weighted technical and financial attributes. An Offeror's response to the solicitation document is evaluated and points are attributed based on how well they meet the defined desirable criteria. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 1000 of all the desirable factors of the RFP. The contract will be awarded to the offeror obtaining the highest cumulative score. The following formula will be applied in calculating the cumulative score:

$$B = T + \frac{C_{low}}{C} \times 300,$$

where

T – is the total technical score awarded to the evaluated proposal;

C – is the price of the evaluated proposal; and

C_{low} – is the lowest of all evaluated proposal prices among responsive proposals.

(a) Objective:

Selection of a specialized company to design, organize and deliver two training programs on Team building and Stress Management for Parliament of Moldova Secretariat staff and Parliament of Youth members.

(b) Background:

Support to Parliamentary Development in Moldova Project aims to enhance parliamentary efficiency in carrying out its functions and responsibilities thus contributing to viable democracy and open society in Moldova. The project adopts a comprehensive, long-term approach to parliamentary development including strengthening of the legislature's law-making, representation and oversight roles. Moreover, it includes cross-cutting, transversal issues such as human rights, MDGs, conflict prevention, anti-corruption, women and minority political involvement etc.

Effective internal and external communication is crucial to the success of the functioning of any professional organization. Based on two previous separate training sessions for the senior managers and a part of Parliament of Moldova Secretariat staff, in which participants have been trained how to act as a team and how to be effective and efficient in performing the assigned duties, another group of parliamentary staffers needs to be further trained through case studies and practical exercises that would develop the skills related to these issues.
