

**RFP466 “RFP: Study on demand and supply of child care facilities in urban and rural areas of Moldova/Joint UN Women –UNICEF initiative” .**

**Q:**

Could you, please, explain the meaning of Objective 3 “Develop a map of women’s employment status in relation to availability of child care facilities in rural areas.” Mainly, the word “map”. It is not clear either to develop the mapping of all villages in Moldova or only the surveyed ones (i.e. the one that Consultant is to be included in the sample survey).

**A:**

In response to the related request, please kindly note that according to the announced RfP, the study is a nationwide one, and it should reflect the situation in the country. Also, please note that Objective 3 of the ToR “Develop a map of women’s employment status in relation to availability of child care facilities in rural areas” is related to the identification and reflection of the situation (mapping) of women’s employment status vis-à-vis the child care services availability.
