To assist in the examination, evaluation and comparison of Proposals, the Purchaser may at its discretion, ask the Offeror for clarification of its Proposal. The request for clarification and the response shall be in writing and no change in price or substance of the Proposal shall be sought, offered or permitted.

21. Preliminary examination

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

22. Evaluation and comparison of proposals

A two-stage procedure will be utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price schedule/financial proposal of the Proposals will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the Term of Reference (TOR) and the Instructions to Offerors.

In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score in the technical evaluation, will be compared. **The cumulative analysis scheme** will be applied with a total score being obtained upon the combination of weighted technical and financial

attributes. An Offeror's response to the solicitation document is evaluated and points are attributed based on how well they meet the defined desirable criteria. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 1000 of all the desirable factors of the RFP. The contract will be awarded to the offeror obtaining the highest cumulative score. The following formula will be applied in calculating the cumulative score:

$$B = T + \frac{C_{low}}{C} \times 300,$$

where

T – is the total technical score awarded to the evaluated proposal;

C – is the price of the evaluated proposal; and

C_{low} – is the lowest of all evaluated proposal prices among responsive proposals.

**Terms of Reference for
Training Program on Decentralization for Public Servants and Elected Officials**

A. BACKGROUND

UNDP and UN Women in partnership with the Government of Moldova (State Chancellery) are implementing the Joint Integrated Local Development Programme (JILDP) funded by the Government of Sweden. The JILDP was designed to improve the policy framework, as well as to support the administrative systems and procedures focused on efficient transfer of competencies to Local Public Administrations (LPAs), decentralization and promotion of LPAs' role in decision making. It also helps in building the capacity of LPAs to plan, implement and monitor their strategic plans and improve local public service delivery, involving civil society and community efforts and participation. Actions in the project seek to secure positive change in areas of human rights, tackling social exclusion and ensuring gender equality.

The main results achieved in the first phase of the programme are:

- The Parity Commission on Decentralization (PCD) was established to coordinate the Decentralization reform
- Five thematic Working Groups of the PCD comprised of representatives of the Central Government, LPAs and civil society were created
