

## 30 communities for JILDIP intervention

**Leading Objective:** Creation of **new, viable, well-functioning, effective and efficient models of local development**, based on the on-going decentralization reform, through capacity building of LPAs, empowerment and genuine participation of local development beneficiaries (women and men, particularly from vulnerable groups), and improved local services and enhanced local economic development.

|     | Regions and Localities | Rayon        |
|-----|------------------------|--------------|
|     | <b>NORTH</b>           |              |
| 1.  | Lipcani                | Briceni      |
