

ENERGIE ȘI BIOMASĂ

Resurse energetice alternative pentru Moldova

RfP for Audit Services Moldova Energy and Biomass Project

RFP14/00756

Answers to online questions:

Q: Could you advise us, in case of electronic submission of the proposal, which time frame (from xxx to xxx) is acceptable in order to submit a password for the encrypted technical and financial proposal? In particular, should this be done before or after 16:30 (local time) on 3 March 2014?

A: It should be noted that in accordance with the art. 23 of the Section 2: Instruction to Proposers, The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on the outside as either "TECHNICAL PROPOSAL" or "FINANCIAL PROPOSAL", as appropriate. In this context, and in accordance with the provision of the p.23 from Data Sheet, offerors must submit Technical and Financial Proposals in separate emails, each of them protected with different passwords.

Offerors will be informed additionally by email when they will be required to submit the passwords. The password for opening technical proposal most probably will be required immediately after the proposals submission deadline, on the same day. The password for opening financial proposals will be requested later, after the completion of the evaluation of technical proposals. However, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened.
