- 10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

11. Amendment of Proposals

- 11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. C. PREPARATION OF PROPOSALS

12. Cost

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language (s) specified in the **Data Sheet** (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the **Data Sheet**, must be accompanied by a translation in the preferred language indicated in the **Data Sheet**. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of this RFP.

15. Technical Proposal Format and Content

Unless otherwise stated in the **Data Sheet** (DS no. 28), the Proposer shall structure the Technical Proposal as follows:

- 15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.
- 15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer's response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the **Data Sheet** (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP's policies and procedures. All proposers are therefore required to submit the following in their proposals:

 - b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.
- 15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP's acceptance of the justification for substitution, and UNDP's approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

- 15.4 Where the **Data Sheet** requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:
- a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the **Data Sheet** (DS no. 11), or;
 - b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the **Data Sheet** (DS no. 9), or;
 - c) In the case the successful Proposer fails:
 - i. to sign the Contract after UNDP has awarded it;
 - ii. to comply with UNDP's variation of requirement, as per RFP clause 35; or
 - iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 7). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

17. Currencies

All prices shall be quoted in the currency indicated in the **Data Sheet** (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

- a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Data Sheet** (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.

Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following:

- a) they have at least one controlling partner, director or shareholder in common; or
- b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
- c) they have the same legal representative for purposes of this RFP; or
- d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
- e) they are subcontractors to each other's Proposal, or a subcontractor to one Proposal also submits

- another Proposal under its name as lead Proposer; or
- f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP's satisfaction. These include, but are not limited to, the following:

- a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods' manufacturer or producer to supply the goods in the country of final destination;
- b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and
- c) That, to the best of the Proposer's knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP's list of suspended and removed vendors.

19. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

- a) Submit another proposal, either in its own capacity; nor
- b) As a lead entity or a member entity for another joint venture submitting another Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

- a) Those that were undertaken together by the joint venture; and
- b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture's Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member

entities.

20. Alternative Proposals

Unless otherwise specified in the **Data Sheet** (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer's Conference

When appropriate, a proposer's conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer's conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

24. Deadline for Submission of Proposals and Late Proposals

Proposals must be received by UNDP at the address and no later than the date and time specified in the **Data Sheet** (DS nos. 20 and 21).

25. Withdrawal, Substitution, and Modification of Proposals

- 25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.
- 25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked "WITHDRAWAL," "SUBSTITUTION," or "MODIFICATION".
- 25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.
- 25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

26. Proposal Opening

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the **Data Sheet** (DS no. 23).

The Proposers' names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

27. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer's submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer's submission shall not be discussed.

E. EVALUATION OF PROPOSALS

28. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

29. Evaluation of Proposals

- 29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.
- 29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.
- 29.3 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

Rating the Technical Proposal (TP):

$$\text{TP Rating} = (\text{Total Score Obtained by the Offer} / \text{Max. Obtainable Score for TP}) \times 100$$

Rating the Financial Proposal (FP):

$$\text{FP Rating} = (\text{Lowest Priced Offer} / \text{Price of the Offer Being Reviewed}) \times 100$$

Total Combined Score:

$$\frac{(\text{TP Rating}) \times (\text{Weight of TP, e.g. 60\%}) + (\text{FP Rating}) \times (\text{Weight of FP, e.g., 40\%})}{\text{Total Combined and Final Rating of the Proposal}}$$

29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

- a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
- b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
- c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
- d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
- e) Physical inspection of the Proposer's offices, branches or other places where business transpires, with or without notice to the Proposer;
- f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
- g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

30. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

31. Responsiveness of Proposal

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

32. Nonconformities, Repairable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

33. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. Furthermore, UNDP shall not be obliged to award the contract to the lowest price offer.

UNDP shall also verify, and immediately reject their respective Proposal, if the Proposers are found to appear in the UN's Consolidated List of Individuals and Entities with Association to Terrorist Organizations, in the List of Vendors Suspended or Removed from the UN Secretariat Procurement Division Vendor Roster, the UN Ineligibility List, and other such lists that as may be established or recognized by UNDP policy on Vendor Sanctions. (See http://www.undp.org/content/undp/en/home/operations/procurement/procurement_protest/ for details).

34. Award Criteria

Prior to expiration of the period of proposal validity, UNDP shall award the contract to the qualified Proposer with the highest total score based on the evaluation method indicated in the **Data Sheet** (DS nos. 25 and 32).

35. Right to Vary Requirements at the Time of Award

At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

36. Contract Signature

Within fifteen (15) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Failure of the successful Proposer to comply with the requirement of RFP Clause 35 and this provision shall constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security if any, and on which event, UNDP may award the Contract to the Proposer with the second highest rated Proposal, or call for new Proposals.

37. Performance Security

A performance security, if required, shall be provided in the amount and form provided in Section 9 and by the deadline indicated in the **Data Sheet** (DS no. 14), as applicable. Where a Performance Security will be required, the submission of the said document, and the confirmation of its acceptance by UNDP, shall be a condition for the effectivity of the Contract that will be signed by and between the successful Proposer and UNDP.

38. Bank Guarantee for Advanced Payment

In the event that the Proposer requires an advanced payment upon contract signature, and if such request is duly accepted by UNDP, and the said advanced payment exceeds 20% of the total proposal price, or exceed the amount of USD 30,000, UNDP shall require the Proposer to submit a Bank Guarantee in the same amount as the advanced payment. A bank guarantee for advanced payment shall be furnished in the form provided in Section 10.

39. Vendor Protest

Quality Assurance/Quality Control services during development and acceptance of software for the State Register of Voters

A. Project Title

Democracy Programme / Elections

B. Project Description

The UNDP Moldova Democracy Programme/Elections (further referred as DP/E) is a multi-year institutional development project that aims to support the institutional consolidation of the Central Electoral Commission of the Republic of Moldova (CEC) as well as the modernization of the Moldovan electoral process towards:

- Improving the capacity of the CEC to meet European gender and human rights standards;
- Improving the institutional environment for electoral management bodies that can deliver inclusive and modern electoral processes;
- Improving the electoral and public registration process of the Republic of Moldova's citizens;

In April 2008 the Parliament of Moldova approved a Law No. 101 On the Concept of the State Automated Information System "Elections" (hereinafter referred to as "SAISE")⁴. SAISE concept foresees development of six modules, including establishment of a separate State Register of Voters (SRV), which would be based on data extracted from the State Register of Population (SRP). One of main objectives of DP/E is to assist the CEC during development and deployment of the SAISE at all elections in Moldova.

During 2013 DP/E assisted CEC with evaluation of the progress for development of the SAISE so far. The evaluation included the feasibility analysis of the required pre-conditions for successful completion of further SAISE modules and SRV. The analysis prioritized further development of the remaining four modules and was followed by the launched procurement of the first two modules: "Importer" and "State Register of Voters".

Background on "Importer" and "State Register of Voters" modules and foreseen functions

A key objective of the Central Electoral Commission is to have complete, correct and up-to-date database of Moldovan citizens with voting rights. This would ensure the CEC's ability to organize elections at any time. In order to allow for establishment and functioning of the SRV it is envisaged that it would integrate the following state registers:

- State Register of Population (SRP), maintained by SE "Registru";
- State Register of administrative and territorial units and streets of settlements throughout Moldova (the so-called address register, maintained by SE "Cadastru");
- Register of persons without the right to vote due to a final court decision (maintained by the Ministry of Justice);

However, currently the SAISE does not integrate with all registers, since out of the 4 above mentioned registers only one - the State Registry of Population - is functional (which was documented in the audit mission report of the Court of Accounts of the Republic of Moldova).

Therefore, currently the CEC is seeking to develop a solution that would allow for data import and receipt of regular updates from SRP ("Importer" module) and for development of SRV ("SRV" module). Even though the two modules are described separately they should be seen as providing one uniform solution for the CEC of having complete, correct and up-to-date State Register of Voters.⁵

Currently, the SRP is a key information resource providing reliable official information on the identity of Moldovan citizens and their identity documents. To meet the requirements of the CEC's IT system, the following categories of information will have to be imported from the SRP:

⁴ See Law 101 from 15.05.2008 On the Concept of the State Automated Information System "Elections"(published 04.07.2008 in the Official Monitor No. 117-119

⁵ For detailed description of the "Importer" and "SRV" modules, please refer to Annex 1 – ToRs for "Importer and "SRV".

- Data on voter's identity (name, birth date, gender, etc.);
- Data on voter's residence;
- Data on voter's identity documents.

In the Terms of Reference (ToRs) for development of "Importer" and "SRV" it is foreseen that both modules will be implemented in parallel in the following recommended implementation phases (the actual implementation will depend on the proposed and approved methodology by the software developer).

Anticipated "Importer" and "SRV" Implementation Phases

The design, development, testing and acceptance of all the functionalities of the "Importer" and "SRV" modules will include the following phases:

1. Preparatory/inception phase:
 - a. Based on the Terms of Reference (ToR), the system developer determines and analyses the requirements, designs the structure of the IT system and develops the technical proposal (a document containing detailed information on solution architecture, conceptual and physical model of data, all IT system components and interaction between them, the need of hardware and software resources for operation, principles of development of the administrator and user interface, features of implemented legislative rules, users and roles, all standard types of documents implemented, principles of information security, etc.). It is envisaged that duration of this sub-phase does not exceed 4 weeks;
 - b. The system developer develops the software code of the IT system and integrates its modules into a prototype version of the IT system (an initial presentation to the parties will be made proving the existence of all required functionalities in ToR and documented in the Technical Project). The duration of this sub-phase will not exceed 2 months.
 - c. The developer tests the subsystem in test mode (internal testing) and prepares the accompanying documentation (the system's functionalities with corrections and adjustments to the objections made in the previous sub-phase, the set of technical documentation are submitted, etc.). The sub-phase will not last more than 1 month.
2. The implementation phase will begin after the approval of the minutes of acceptance by the owner of the software system (CEC) in the submitted version and the signing of the statement of acceptance in experimental operation. At this phase the system developer tests the system in experimental conditions, detects and removes performance errors, etc. At this phase the developer prepares the final version of the IT system to be commissioned. The phase will last at least 1 month.
3. The training phase will start with the implementation of the IT solution and will include the training of 6 users from the IT Deptment of the Central Election Commission (for "Importer" module) and up to 12 users from the other relevant subdivisions of the CEC for the role of the Registrar (for "SRV" module). The phase will last 1 week.
4. The commissioning of the system begins with the signing of the statement of commissioning of the software system and start of use.
5. The system maintenance phase currently is envisaged for 24 months during which the system developer assumes the commitment to the owner to assist them in maintaining or changing the software product, while keeping its integrity.

C. Scope of Services and expected Outputs

This section describes the general scope of work of the System Quality Assurance/Quality Control provider (QA/QC provider) contractor for "Importer" and "SRV" software to be performed during the project period. While all topics in this section must be comprehensively addressed in the QA/QC Bidder's proposal, Bidders may realign the associated deliverables structure in accordance with their proposed methodology and solution. If proposing an alternative deliverables structure, the proposal must clearly demonstrate how the content defined for each deliverable in this RFP will be met with the QA/QC contractor's alternative proposal.

The selected contractor will have the primary responsibility for Quality Assurance/Quality Control during design, development, testing and acceptance phases of the "Importer" and "SRV" modules by the system developer and ensuring that the services provided by the system developer meet the requirements of "Importer" and State

Register of Voters functionalities as provided by the Law 101, Law on Registers⁶, Electoral Code as well as of the Terms of Reference and technical proposal for "Importer" and State Register of Voters modules.

The QA/QC contractor will aid the DP/E and the CEC in the process of development of the "Importer" and "SRV" modules, through provision of **Quality Assurance/Quality Control services and support** towards meeting both the functional and the non-functional requirements of the IT system as per the original ToRs and technical proposal of the system developer.

The scope of this contract is continual monitoring and provision of reports to the DP/E and CEC on the entire process of the development and implementation of the software.

As a result of the services of the QA/CQ contractor, the DP/E and CEC expects that "Importer" and "SRV" Software will be fully in line with applicable legal framework of the Republic of Moldova, requirements of the CEC and DP/E and increases operational efficiency and effectiveness as well as meets the applicable certifications required by Moldovan Law on Registers.

During the project, the QA/QC contractor will monitor "Importer" and "SRV" Software development progress, including costs issues, change order issues, provide recommendations on approval or non-approval of iterations, certification and provide recommendations for final acceptance of "Importer" and "SRV" to the DP/E and CEC.

The QA/QC contractor's Project Manager will be the primary point-of-contact with the DP/E team and will be responsible for the day-to-day planning and management of the SQA team activities to help ensure that the project runs efficiently and meets dates and objectives.

The system QA/QC provider will be responsible for:

- Monitoring the Design, Development and Implementation (DD&I) of the "Importer" and "SRV" modules by company selected to perform system development (Importer/SRV developer);
- Providing Quality Assurance/Quality Control (QA/QC) support in the development and transfer of "Importer" and "SRV" Software to the CEC throughout the design, development, pilot testing and final testing, implementation, documentation, training, and deployment phases;
- Providing feedback and recommendations to involved parties (DP/E, CEC and system developer) regarding compliance of the "Importer" and "SRV" Software with all requirements;
- Ensuring that "Importer" and "SRV" Software is developed to meet the requirements of DP/E and the CEC;
- Validation of the system functionalities ensuring that the delivered system:
 - satisfies all testable "Importer" and "SRV" software requirements;
 - supplies the functionality identified in the "Importer" and "SRV" Software ToR;
 - retains appropriate, existing SAISE functionality/interoperability.;
- Verify that the system and its deliverables address all "Importer" and "SRV" requirements as per individual ToRs;
- Ensuring system deliverables and documentation produced by the system developer are complete, accurate, usable, and adhere to DP/E and CEC requirements and generally accepted industry standards;
- Reviewing and evaluating the System, Integration, Regression, Piloting and User Acceptance Test Plans developed by the system developer;

- In conjunction with the system developer, support the execution of appropriate test plans to ensure that the "right system is being Developed" and the system developed is a quality product.

QA/QC contractor is expected to follow-up and review all system documentation, assuring compliance with international standards in software engineering, and must cover the following categories:

- Requirements - Statements that identify attributes, capabilities, characteristics, or qualities of a system.
- Architecture/Design - Overview of software. Includes relations to an environment and construction principles to be used in design of software components.
- Technical - Documentation of code, algorithms, interfaces, and APIs.
- End user - Manuals for the end-user, system administrators and support staff.

⁶ Law No. 71 of 22 March 2007 on Registries <http://lex.justice.md/md/325732/>

The contractor should, in conjunction with all technical personal involved in the process, assure the implementation and development of the Database Design Document (DDD), containing conceptual, logical, and physical design elements. 14.0 FORCE MAJEURE; OTHER CHANGES IN CONDITIONS

14.1 In the event of and as soon as possible after the occurrence of any cause constituting force majeure, the Contractor shall give notice and full particulars in writing to the UNDP, of such occurrence or change if the Contractor is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under this Contract.
