

Request for Quotation (RfQ14/00822)

Furniture for General Police Inspectorate Office

Clarification Questions and Answers (as of 24 July 2014)

- Q.1. We noted that in the Request for Quotation for furniture for the GPIO, the flip-top tables are to be mounted on glides. For reasons of increased mobility and ease of movement for storage and/or rearrangement of the tables, we suggest the usage of wheel-mounted table legs. The wheels are all equipped with blocks, preventing unwanted movement when the tables are in use, and we consider this a superior feature to the description in the Request for Quotation. We therefore kindly ask you to consider this suggestion, and to inform us if it is acceptable for us to send you an offer for wheel-mounted flip-top tables.
- A.1. *The option of flip top tables mounted on caster wheels with brakes is acceptable and will be considered technically qualified at the evaluation of offers.*
