

REQUEST FOR QUOTATION (RfQ15/01079)

Procurement of Interpretation and Multimedia Equipment

Clarification Questions and Answers (as of 20 August 2015)

- Q.1. Item 23. Installation services and testing: as most of the equipment is mobile equipment, do you still need manpower onsite to set up and do the testing?
- A.1. The equipment delivered needs to be installed/mounted, connected and tested by the representative(s) of the supplier to ensure that it works and no defects are present.
- Q.2. Please confirm how many interpretation languages are required?
- A.2. The proposed solution should support at least 2 (two) interpretation languages.
- Q.3. Please provide us with the dimension of the conference room and the layout of it?
- A.3. Since the request is for mobile interpretation equipment, which will be used in rooms of various sizes and configurations, it is not possible to provide any details about the dimension and layout of the room.
- Q.4. Regarding items 11& 12, if it is required active loudspeakers we believe that it is no need for mixing amplifier for them but the required is mixer only. Please confirm.
- A.4. The request is for active loudspeakers and mixing amplifier.
