Computer hardware rental services for the
Central Electoral Commission of Moldova

Question 1: You requested RAID controller with support of RAID level 5 and 6 with 512MB, but at the same time requested only two disk drives. Problem is that RAID 5 requires min. 3x HDDs, and RAID 6 requires min. 4x HDDs. With two HDDs you can build only RAID 0 or RAID 1.

Answer 1: UNDP is hereby correcting the technical specifications, as follows:

Technical Specifications:

Item	Generic Description	Quantity
1.	**Server** Processor type: *similar to* Intel Xeon E3/E5 series, 12MB L3 cache Physical cores per socket: minimum 4 Virtual cores per socket: minimum 8 Socket per server: minimum 2 32GB RAM DVD-RW HDD SAS 6G 2x300GB ~~RAID Ctrl SAS 6G 5/6 512MB~~ RAID Ctrl SAS 6G 0/1 Eth Ctrl 2x1Gbit 1U or 2U Rack Mountable Regular PSU Cable power cord rack, 4m Remote Virtual console for administration purposes OS Windows server 2012 R2 pre-installed (can be in evaluation period)	4 (four) units
